ABUJA · NIGERIA

OEM & INTERNATIONAL PARTNER EDITION / OCTOBER 2026

A credible local partner

An Abuja-based company delivering specialist goods and technical procurement support to Nigeria's electricity-generation sector.

WHO WE ARE

FIRST - CORNERSTONE PROJECT SOLUTIONS LTD is a Nigerian company incorporated on 23 March 2016. Our work includes sourcing, procurement and supply of industrial equipment, electrical and control components, turbine-related maintenance materials, water-treatment chemicals and operational consumables for power-generation facilities.

We combine documented experience with NDPHC generation companies and a growing international supplier network to pursue dependable, specification-led supply partnerships.

FEATURED COMPLETIONS

OUR BUSINESS POSITION

First Cornerstone is an independent procurement and market-development business. We do not describe ourselves as an OEM, an NDPHC subsidiary or a manufacturer's authorized representative unless a separate written appointment exists.

OUR PURPOSE

To connect Nigerian power-sector requirements with reliable global manufacturers through accurate technical matching, transparent commercial terms and responsible delivery.

Where we add value

Specialist equipment and materials procurement, grounded in documented customer-facing delivery experience.

CORE SUPPLY LINES

01 Turbine & plant spares

Turbine sensors, temperature control devices, filters and related plant auxiliaries.

02 Electrical & controls

Electric motors, transformer-management relay modules, instrumentation and switches.

03 Industrial operating supplies

Water-treatment chemicals, filtration media, lubricants, batteries and consumables.

SPECIFICATION MATCHING

Part numbers, datasheets and acceptable technical equivalents, subject to customer approval.

GLOBAL SOURCING

Manufacturer enquiries, quotation comparisons and provenance documentation.

PROJECT PROCUREMENT

Order clarification, delivery coordination and commercial documentation.

AFTER-SALES LIAISON

Escalation of warranty, quality or application questions to manufacturers.

Technical suitability is established for each enquiry; no blanket OEM certifications or authorized-brand status are claimed.

Selected completed projects

Examples supported by job-completion documentation included in the company records.

01

OGORODE POWER STATION

2024

WATER-TREATMENT CHEMICALS

Supply of corrosion-inhibitor and sodium-hypochlorite treatment materials for GTG cooling-water requirements.

Completion certificate dated September 2024 · Source dossier p.11

02

ALAOJI POWER STATION

2025

ELECTRIC MOTORS FOR PLANT PUMPS

Purchase and supply of eight electric motors of different specifications for plant pump applications.

Completion certificate dated February 2025 · Source dossier p.12

03

ALAOJI POWER STATION

2025

GE MULTILIN CT/VT RELAY MODULES

Supply of ten CT/VT modules for GE Multilin T60 transformer-management relays, as identified in the signed completion affirmation.

Completion affirmation dated November 2025 · Source dossier pp.14–15

Additional documented work

Purchase orders and award documentation demonstrate exposure to multiple types of generation-plant requirements.

ALAOJI

Industrial electrical equipment, diesel-generator batteries and equipment-control purchases.

OLORUNSOGO

Gas-turbine speed-sensing items and rapid-pressure-rise relay requirements.

CALABAR

Water-treatment chemicals, membranes/filters, consumables and specialist instrumentation.

OGORODE

Power-station industrial supplies and safety-related material procurement.

IHOVBOR

Industrial auxiliary systems and battery-charger related procurement.

Status distinction: these additional records are purchase orders / awards, not represented here as completed unless separate acceptance evidence is available.

A practical Nigeria route to market

A documented, product-specific arrangement with technical and commercial responsibilities clearly defined.

OUR PROPOSAL

Act as a non-exclusive Nigerian market-development, referral, sales agency or authorized resale partner for agreed products, subject to due diligence, a written agreement and manufacturer authorization.

01

DEVELOP OPPORTUNITIES

Identify relevant tenders and qualified enquiries from generation and industrial operators.

02

COORDINATE TECHNICALLY

Translate specifications, drawings and part numbers into accurate RFQs with OEM review.

03

SUPPORT PROCUREMENT

Coordinate quotations, logistics, documentation and customer communication.

04

PROTECT THE BRAND

Use approved product claims and traceable supply channels; escalate quality issues.

WHAT SUCCESS LOOKS LIKE

Signed scope-limited letters of appointment • approved product catalogue • RFQ and deal registration process • agreed distributor margin / commission • authentic technical and warranty documentation.

Registration and credibility

Clear corporate identity and project evidence for international supplier screening and onboarding.

DOCUMENT CONTROL

This shareable profile is non-confidential. Detailed purchase orders, completion certificates, references, proprietary drawings or pricing are provided separately where authorized. Third-party logos are not reproduced as endorsements.

Illustrative industrial imagery is conceptual and does not depict First Cornerstone assets or project sites.

LET'S BUILD THE RIGHT PARTNERSHIP.

We welcome discussions with qualified gas-turbine, control-system, power-equipment and industrial component manufacturers seeking a reliable Nigerian commercial interface.
